1.	(Tru	ue/False) The variance of a model is determined by the degree of irreducible error.	1/1 point
	0	True	
	•	False	
		Correct! You can find more information in the Bias Trade Off lesson.	
2.	(Tru	re/False) As more variables are added to a model, both its complexity and its variance generally increase.	1/1 point
		Correct! You can find more information in the Bias Trade Off lesson.	
	0	False	
3.	. (True/False) Model adjustments that decrease bias also decrease variance, leading to a bias-variance trade off.		
	○ True		
	•	False	
		Correct! You can find more information in the Bias Trade Off lesson.
